COLIC IN HORSES.—P. S. Garman, of Elkhart county, Indiana, gives his experience in treating cases of colic in horses. A few days ago a horse of mine was attacked with a fit of colic. It was so severe that I thought the animal must die in less than thirty minutes if not relieved. I drenched it with the following mixture: Spirits of turpentine three ounces, laudanum one ounce, warm water half a pint. It proved a specific, the animal being relieved in about ten minutes after drenching.

WORSE THAN THAT.—Some years ago, as Captain B., of the steamer Water-Witch, was passing down the Arkansas river, they had pressing need of an axe, and not having one on board, at the first landing the boat rounded to, and the Captain dispatched an Irishman to the nearest Cabin in quest of one. Pretty soon Patrick returned with an axe; but when, after having used it, the Captain ordered him to return it he refused, point blank.

"But what is the reason?" urged the Captain.

"Sure then an' I'll just tell ye.—Whin I went up to the cabin I saw a white woman, an' axed her perlitely for the loan of an axe, an' she telled me to axe her husband in the cornfield. So, yer honor, I went up to the cornfield, an' I saw a big, black nager a standing there, an' I sez to him, ez I, "Where's your masher?" Sezs he, 'I'm the masher.' An' sez I, 'I'm afther having the loan of an axe for a few minutes. Sez he, 'Go down to the house an' git it.'

"Well, I got the axe, Captain, an' as I wint by the door, sez I to myself, 'Be jabbers, but I'll give her a small bit of my mind!' So I pokes me head in the door, an' sez I,—

"Ain't ye 'shamed of yerself to be havin' a black nager for a husband?"

"La! no," sez she, "I had a sister who done worse than that."

"An' what was that, sure?" sez I.

"Why, she married an Irishman," sez she.

"So you see, bedad, Capting, I'll be father spaking no more to the baste—begging your honor's pardon."

The "Capting" laughingly excused him from so unpleasant a duty.

THE other evening a gentleman's button caught hold of the fringe of a lady's shawl.

"I am attached to you," said the gentleman laughing, while he was industriously trying to get loose.

"The attachment is mutual" was the good humored reply.

"BOB, how is your sweetheart getting along?" "Pretty well, I guess; she says I needn't call any more."

A WESTERN YARN.

A Hoosier, an awful ugly man, relating his travels in Missouri, said that he arrived at Chickenville in the afternoon, and just a few days afore there had been a boat busted, and a heap of people scalded and killed one way and another. So at last as I went into a grocery, a squad of people followed me in, and one bowed; sez he, 'it's one of the unfortunate sufferers by the bustin' of the Franklin,' and upon that he axed me to drink with him; as I had my tumbler half-way up to my mouth, he stopped of a sudden.

'I beg your pardon, stranger—but,' sez he.

'But what?' sez I.

'Just fix your mouth that way again,' sez he.

'I done, it just like gwine to drink, and I'll be hanged if I didn' think the whole on 'em would go into fits!—They yelled and whooped like a gang of wolves. Finally one of 'em sez, 'don't make fun of the unfortunate; he's hardly got over bein' blowed up yet. Let's make up a puss for him.' Then they all throwed in and made up five dollars. As the spokesman handed me the change, he axed me. 'What did you find yourself after the 'spolsion?'

'In a flat boat, I sez.'

'How far from the Franklin?' sez he.

'Why,' sez I, 'I never seen her; but as nigh as I can guess, it must have been, from what they tell nigh on to three hundred and seventy-five miles.'

You aughter a seen that gang scatter.

☞ The landlord of a hotel said to a boarder; "Look o' here! I want you to pay your bill, and you must! I have asked you often enough for it, and I tell you now that you don't leave the house until you have paid it." "Good!" said the lodger.—"I'll stay with you as long as I live."

Why should a wood cutter never be hungry? He can always have a chop by axing.

What ladies are best to go fishing with? Ann-nette and Caro-line.

THE UNIVERSITY AND THE PUBLIC SCHOOLS.

Under the Constitution there must be a general and uniform system of free Public Schools in the State. The provision is a wise one. The poor, as well as the rich, should be educated. To effect this purpose a number of teachers for each county will be required. They should be well qualified for the task. A school will ordinarily not derive from the labors of an incompetent teacher a tithe of the good to be obtained from the services of a first class instructor. Indeed positive injury is not infrequently the result of committing the child to the tuition of a bad preceptor. During the brief period at which our children can attend the Public Schools we wish them to derive the greatest amount of good.

While we have among us some citizens who will make excellent teachers in the Public Schools, still it will hardly be supposed that we have enough of this class, nor even denied that there are comparatively few who are ready to undertake this most important duty. Heretofore we have been too far compelled to look abroad for our primary school teachers as well as for the Professors in our higher Seminaries of learning. We must do this still where our own citizens are unable to come into competition, in point of ability, with those who have had the advantages of an education in the Universities and Normal Schools at the North. Between an applicant from abroad and a native citizen of equal competency, doubtless the preference would be given to the latter.—But regardless of sectional preferences, be they just or unjust, we must select the best teachers. Must North Carolina always suffer the taunt that she is dependent upon others for instruction, and like a stupid girl forever sit begging at the feet of her sisters? Hitherto she has properly, because necessarily, done so.

The Constitution provides that the University shall be held to an inseperable connection with the Free Public School system of the State It further requires the establishment and maintenance, in connection with the University, of a Department, for Normal Instruction. It is advertised that this Department, together with a general course of University Lectures, will be opened the next session; and that the benefits of the institution are offered, free of charge, to a limited number of residents in the State, upon application with satisfactory testimonials. This liberal offer will enable our own citizens successfully to compete for the important position of teachers in our Public Schools. The normal instruction at the University should, and doubtless will, be such that a certificate of graduation would not only give the candidate an implied but actual advantage. Even a brief season spent there, of a few months or weeks, among the Libraries of the University, in the class rooms of the Professors, and with the benefit of the free lectures, could not fail to be of service.

The Trustees very properly, in the selection of a Faculty, chose only men who had stood aloof from the arena of party strife, and who had spent most of their lives as practical teachers, and in literary and scientific pursuits. The Professors elect accepted as their opponents would probably have done under simular circumstances. They will not reasonably be expected to allow themselves so soon to be driven by invective, from a position of usefulness and honor.

They will hardly attempt to give to the institution a partizan or sectarian bias, or to influence the minds of their students in these respects. The political and religious views of young men in the University should, and must, be untrammeled and free as the air of heaven. Passion and prejudice may exist for an hour, but grand and decisive advances in the cause of popular education are chronicled by the centuries.

A NORTH CAROLINIAN.

Aug. 4, 1869.

Mr. Frederick Douglas, Jr., recently married a daughter of Mr. A. Molyneux Hewlett, of Harvard University. Some of the papers have stated that the bride's father is a white man and a Professor in the College. This is not the case. Mr. Molyneux is a mulatto. He was formerly a prize-fighter of considerable repute in England, and is now instructor in gymnastics at Harvard.

DOCTORS AND DRUGGISTS.

Is it not about time, sensibly asks the Cincinnati *Enquirer*, that our medical friends should make themselves acquainted with the English language, and use it in writing their prescriptions? Cases of poisoning through the blunders of stupid druggists, and the vicious chirography and stump-tailed Latin of prescribing physicians, are becoming as common as coal oil suicides. In Chicago, only a day or two ago, a stranger from Indiana was "taken in and done for" by a drug-dispensing blockhead who supplied him with tincture of aconite instead of some harmless medicine for which he called. In Hartford, at about the same time, a child was sent to the grave by the substitution of ammonia for cinnamon, in a physician's order; and similar occurrences in one place or another are brought to the knowledge of the public almost daily. Would it be an overstrained estimate to put the proportion of deaths from like mistakes, which are never discovered, at five times the number actually ascertained? Something should certainly be done at once to put a check upon this murderous business. The use of the vernacular in prescriptions could not be expected to act as an infallible preventive; but, by enabling patients or attendants to recognize the components of the prescribed medicine, it would put within their reach, if intelligent and watchful, in very many cases a tolerably certain guarantee against the mistakes of doctors and druggists. The present system, at all events, seems fraught with hazards too numerous and too deadly to be much longer tolerated; and our medical friends will do well to devise and introduce a safe substitute as soon as possible.

The foregoing remarks receive melancholy enforcement from the following occurrence, only last Tuesday:

Mrs. Dr. Schrader and her mother, of Red Rock, Marvin county, Iowa, were both poisoned yesterday by taking a dose of belladonna, given to them by a blundering druggist. Both died in a few hours.

WITHDRAWAL OF TEN-DOLLAR NOTES.—General Spinner has directed that all ten-dollar notes coming into the Treasury be held, and that no more be issued. The design is to withdraw the entire issue from circulation and destroy it, to guard against the corruptions of the newly discovered dangerous counterfeits of that denomination.

SPECIAL NOTICES.

THE GREAT MEDICAL MISTAKE

Of former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness.—Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanliness, the great antidote to feb ile diseases, was sadly neglected. It is not so now. Wise laws, philanthropic institutions, and a vigilant sanitary police, have, to a great extent, remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lessen the rates of mortality — It is not too much to say that TENS OF THOUSANDS escape sickness in unhealthy seasons in consequence of having INVIGORATED THEIR SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegetable tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles, more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant. The result is such a condition of the system as renders it *all but impervious* to the exterior causes of disease, such as damp fog, sudden alternations of temperature, &c Strength, and the perfect regularity of all the functions of the body, are the best safe guards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and biliousness they are a SPECIFIC ABSOLUTE.

A FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound; and, while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in the most unskillful hands. For Summer Complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt, been more successful in curing the various kinds of Cholera than any other known remedy, or the most skillful physician. In India, Africa and China, where this dreadful disease is more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, *a sure remedy.*

THE PAIN KILLER.—We have known the high character of this medicine, and that it is used with great success and satisfaction in our very best families. It is the favorite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, and be in readiness for sudden attacks of sickness.—*Christian Press.*

TWO AGED PEOPLE SHOT—PROBABLY FATAL RESULT.—Tuesday evening while Jesse Lindsay and wife (colored) were eating their supper, at their home on Bay River, some person or persons shot them both. Mr. Lindsay will probably die, being entirely riddled with shots. His wife was shot through the thigh, and may recover. We are informed that the whole affair is a mystery, and that no steps have as yet been taken to detect the perpetrators of the deed.—*Newbern Times.*

Messrs. P. H. Drake & Co., proprietors of the PLANTATION BITTERS, are said to be the largest importers of St. Croix Rum and Calisaya Bark in America. The Rum imported by this Firm is all used in the preparation of their Bitters, and is manufactured under the immediate supervision of one of their agents, upon leased plantations on the Island of St. Thomas. Over nine thousand puncheons, about one million gallons, is used annually for their Bitters alone. The Calisaya Bark is all imported from Brazil, and is also gathered and selected by the natives, under the supervision of an agent sent out for that purpose. The cures produced by these Bitters are wonderful.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

SPECIAL NOTICE.

THE KIDNEYS—THE KIDNEYS ARE TWO in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz.: the Anterior, the Interior and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior The exterior is a conductor also terminating in a single tube, and called the Ureter. The ureters are connected with the bladder

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. It is frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.—Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

THE GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys.—These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues

DROPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz.: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest Hydrothorax.

TREATMENT.—Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have a ranged Dysuria, or difficulty and pain in passing water, scanty secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color, or dark water. It was always highly recommended by the late Dr Physick, in these affections.

This medicine increases the power of digestion, and excites, the absorbents into healthy exercise, by which the watery, or calcareous, deposits, and all unnatural enlargements, as well as pain and inflamation, are reduced, and it is taken by men, women, and children Directions for use and diet accompany.

PHILADELPHIA, PA., Feb. 25, 1867.

H T HELMBOLD, Druggist:

DEAR SIR—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medical preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room.—From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

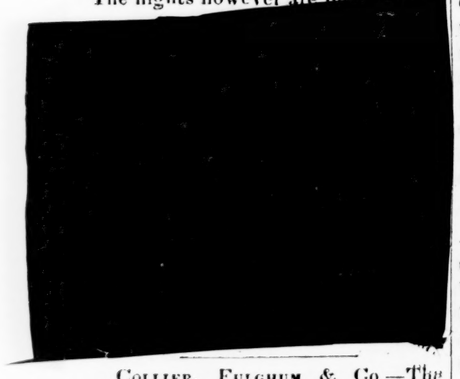
EXCHANGE HOTEL.—Mr. T. A. Granger having retired from the Granger House, its Proprietors, Messrs. Jones & Murphrey, have again taken charge, changing the name to the Exchange Hotel.

THE WEATHER.—The weather is again warm, and we fear that we are to have another "heated term." It is also very dry. We have not had a good rain for nearly a month. The nights however are pleasant.



COLLIER, FULGHUM & Co.—The card of this firm appears in our issue today. The members of this new business house are men of large experience, reliable, responsible, and possessing unequalled business qualifications. They propose to conduct business strictly upon the *Cash System*, and while confining themselves principally to the Commission business, they will deal, to some extent, in Pork, Fish, Flour, Grain, Bagging, Ties, &c. These articles they will be prepared to furnish in a few days.

We learn that they are also perfecting arrangements to make liberal cash advances on Cotton, and other produce consigned to their correspondents in Boston, New York and Wilmington, during the coming season.

Capt. R. T. Fulghum, though not a member of the firm, will have entire control of the business. Of his well known ability to conduct a commercial business, 'tis useless for us to say anything. Energetic, polite, and ever ready to serve his friends, we bespeak for Messrs. Collier Fulghum & Co., through his management, an extensive and successful business career. Store and office under the NEWS printing establishment.

☞ Protracted meetings are being held in the Methodist and Baptist Churches in this town. Preaching every night this week.

GOLDSBORO' FEMALE COLLEGE.—The Fall Session of this most excellent School opened on Monday, the 9th inst. We are pleased to learn, that the attendance is good, about fifty young ladies having already entered.

Address the Magazine, Philadelphia, and enclose $2 for a year's subscription.

☞ Remember, that the Grand Drawing of the Real Estate Agency will take place in Raleigh on Saturday the 28th instant. All who have not procured tickets can do so by applying at this office.

Substitute for Cream in Coffee.—Beat the white of an egg to a froth; put into it a small lump of butter, and turn the coffee to it gradually, so that it may not curdle. It is said to be difficult to distinguish the taste from fresh cream.

IMPORTANT.—The next total eclipse of the sun is announced for May 28, 1900.

May we all be here to see it!

DEMOREST'S YOUNG AMERICA.—This excellent little periodical is constantly adding to its reputation, and is certainly the most sensible, practical, and best edited of all the juvenile magazines. It is not composed, like some others, of a certain number of stilted articles, but it enters right into the sympathies, interests, and occupations of its young readers and patrons, allows them to speak for themselves, and stimulates them wonderfully to activity of thought and expression. We consider it the best investment of $1.50 that any parent can make. Published at 888 Broadway, N. Y.

THE LADY'S FRIEND FOR SEPTEMBER.—A handsome steel engraving of Portia, the heroine of "The Merchant of Venice," opens the September number of this charming periodical. This is followed by the usual large and brilliant Fashion Plate, by an appropriate engraving of a Picnic, and by engravings of Children's Fashions, Young Eady's Toilet, Mantelet, Headdresses, Bodice, Corsage, &c.—Among the literary matter are "The Prize of Two Men's Lives," by Amanda M. Douglas; "Ingratitude," by Florence Percy; "Aunt Mabel's Story," by Aunt Alice; "Roland Yorke," by Mrs. Henry Wood; "My Catechism and Its Consequences," by Harrie Boyer; "Between Two," by Elizabeth Prescott, &c., &c. Published by Deacon & Peterson, 319 Walnut Street, Philadelphia, at $2.50 a year (which also includes a large steel engraving). Four copies $6.—Five copies (and one gratis), $8.—"The Lady's Friend" and "The Saturday Evening Post" (and *one* engraving), $4.00. Specimen numbers sent for ten cents.

ALABAMA ELECTION—THE RESULT.—*Montgomery, August 10.*—Full returns from the third congressional district give Heflin (Republican) 260 majority over Parkinson. The delegation will stand: Beck, from the first; Buckley, from the second; Heflin, from the third; and Hays, from the fourth (all Republicans); Dix and Sherwood (Democrats), from the fifth and sixth. This is a gain of two Democrats, the delegation in the fortieth Congress being all Republicans. The vote in the State will be but little, if any, more than one-half that cast at the Presidential election.

THE CHILDREN'S HOUR, a Magazine for the Little Ones, by T. S. Arthur, of Philadelphia, is one of the best publications for children in the country. The September number is neatly printed and appropriately illustrated.

Columbia, Tenn., has a hen that lays eggs as large as goose eggs, and each egg contains two or three yolks, and the hen crows like a rooster.

A new and rich vein of lead has been struck near Victoria, Jefferson county, Mo. Solid pieces of the mineral as large as a half-peck measure have been taken out.

Two men in Dubois county, Ind., recently swapped wives, one paying the other three bushels of corn to boot. We guess a few wives would be glad to trade husbands on such terms.

Whisky is recommended as a protection against muspuitoes. Taken internally in sufficient quantities it will cause perfect insensibility to their stings.

A contemporary speaks of an individual who "buys one or two shares of stock in every railroad and bank in order to go to all the annual elections and eat all the annual dinners."

DEATH OF JUDGE OSBORNE.

We regret to learn from the Charlotte *Times*, of Thursday, that this distinguished citizen of our State is no more. That paper says:

We are pained to announce this morning the death of our distinguished citizen, the Hon. James W. Osborne. He died at his home in this city on yesterday, at the hour of 11 A. M. Although the death of Judge Osborne, in view of his precarious health for some weeks past, was not entirely unexpected, his demise on yesterday threw over our whole community a sadness and gloom never before witnessed here at the loss of any one individual. He was a man without guile, and numbered his friends among all classes and conditions of people.

Judge Osborne, from his earliest entrance upon the theatre of active life, has engaged a large share of public attention. His genial manners, his rare talents, his persuasive eloquence, his purity of purpose and his zeal in every good work, all combined to gain him popular applause, and to attach to him the wisest and best of the land. He has filled many high positions—all with eminent ability; and against his fidelity the breath of suspicion has never uttered even a whisper.

He goes to his grave in the 59th year of his age; in the full vigor of his intellect—crowned with honors and good deeds, and blessed with the hopes and promises of the life that is to come.

It has been decided by the supreme court of California that betting on elections is contrary to public policy and is therefore illegal, but the opinion concludes with the remark that "after the money has been lost and won, neither party ought to be heard in a court of justice."

THE "CHRISTIAN SUN," published in Suffolk, has been enlarged to the extent of a full page of reading matter. The *Sun* is an excellent paper, and should be liberally sustained. The price, $3, remains the same.

IMPORTANT TO BANKRUPTS.—One of the most important requirements of the Bankrupt Law, is that which requires the party applying for its benefits to file his petition for a discharge within twelve months after his adjudication as a Bankrupt. The importance of this provision seems to have escaped the attention of many interested parties. When the time above alluded to expires, without a compliance with the law, the Registers in different parts of the State have no further option than to strike the name of the delinquent parties from their records. Should he afterwards desire to try the law again, he will have to begin *de novo*, and will, besides, have to surrender assets equal to 50 per cent. of his indebtedness.

It has also been decided that a person who applies for the benefits of the act under the fifty per cent clause will be entitled to the property exempted whether he receive his discharge or not. That amount will be secured to the applicant in perpetuity. This is a very important matter to many people, and it affects quite a number of cases already in progress in the State.

AN AMUSING TRICK.—The latest indoor amusement says, Dr. Bagby, is is termed the "printer's delight," and is performed in the following manner: Take a sheet of note paper, fold it carefully, and inclose a bank-note sufficiently large to pay up all arrears, and a year in advance.

THE COMET.—The comet announced by astronomers to appear this month is on time, and may be seen in the northeast between the hours of 11 P. M. and 3 A. M. Astronomers say there is some possibility that it will come in contact with the earth, unless it changes its course.

A girl in Wisconsin swallowed forty percussion caps. Her mother refrained from spanking her for fear of an explosion.

THE cool weather we are having just now is attributed to the unusual number of spots on the disc of the sun—a large number of which are said to be visible.

In Raleigh a few days ago Mr. Harris bought of a white boy a lot of rags, among which was concealed the body of a dead infant.

Hon. John Bell, of Tennessee, is rapidly failing, with no hopes of recovery.

IMPORTANT DECISION.—The Internal Revenue Department has decided that base-ball clubs are subject to tax, and accordingly will in future be compelled to take out licenses. It is added that the tax will be at the rate of ten dollars per annum for their exhibitions, and a tax of 2½ per cent. upon their gross receipts, while the treasurers will be required to make monthly income returns.

It is found that the loss of currency by wear and tear is more than sufficient to pay the expense of printing and issuing it. The average life of a bank note is three years, and that of currency a much shorter time.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED—AND THE NEW

Universal Clothes Wringer

Improved with ROWELL'S PATENT DOUBLE COG WHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our Machine,' after a year's use, is thought more of to day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catharine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price, Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines free of freight, after a month's trial, according to directions.

No husband, father or brother should *permit* the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

DICK DALLEY'S STUMP SPEECH.

Fellow Citizens!—This are the day for the poperlation at Boonville, like a bob-tailed pullet on a rickerty hen-roost, to be lookin up. A crisis has arriv—and something's bust! Where are we? here I is, an I'd stand here an expirate now till the day o synnagogues if you'd hoop for Dally. Fellow citizens—Jerusalem's to pay, we hain't got any pitch. Our hyperbolical an majestic cuna boat o creation has outshipped her rudder and the Captain's broke his neck, an the cock's div to the depth's of the vasty deep in search o dimuns! Our wigwarms tore to pieces, like a shirt on a brush fence, and isty o these are lattertudes is a vanishing in a blue flame! Are such things to be did? I ask you in the name of the American eagle, who whipped the shaggy headed lion on the magnetic telegraph, if such doins is a going to be conglemerated! I repeat it to you in the name of a pea-cock o liberty when he flew o'er the cloud capped summit o the Rocky Mountains, if we's goin to be extemperaneously blogyogged in this fashun.

'O, answer me!
Let me not burst in ignorance!'

as Shakspeer says. Shall we be bamboozlefied with such unmitigated oudaciousness? Me thinks I hear you yelp—'No sir ree—hoss!' Then lect me to Congress an there'll be no revolution. Feller citizens if I were standin on the adamantine throne o Jupiter, and lightnin's was a clashin around me, I'd continue to spout! I'm full o the bilin lather o Mount Etny, an I won't be quenched nuther! I've sprung a leak, an must howl like a bear with a sore head.—Flop together, jump into the ranks, an hear me throo. Feller citizens—You know me, an rip my lungs out with a nail grab, if I wouldn't stick to yer like brick dust to a bar o soap. Where's my opponent? no where! He ain't a cat-bird in a garret to me! I was brought up among you, feller citizens, he was born in a school hous, but he can't get me with his hifaluten words, Hictum, strictum, albro, anto, catnit, Brazil, Dagloonny and Baffin's Bay! What do you think of that?

'Go it porky—root hog or die!'

as Shakspeer said when Cæsar stabbed him in the House of Representatives.

Feller citizens—Elect me to Congress an' I'll go in for teetotal anihilation of niggers, camp meetins and jails. I'll repudiate crows and flustify hen hawks. I'll have barn raisin's every day (Sunday excepted) and liquor enough to swim skunk.—Yes, feller citizens, lect me to Congress, and terrific language of Bonaparte when preaching in the wilderness—

'Richard's himself again!'

On, then onward to the polls—'gallop space fiery footed steeds;' and make the welkin tremble with anti-spasmodic yells for Dalley. Cock yer muskits—I'm a comin!

'Hene ye, Brutis; broad axe an' glory.'

Let's licker.

RULES FOR WORK HORSES.

The following is the experience of an old farmer:

1st. If I have a hard day's work to perform, I do not overfeed that day.

2nd. If I must drive ten miles an hour, be sure that my horses have not full feed or water immediately previous to the drive, as a full stomach and violent or over-exertion do not harmonize in man or beast. I have heard some men complain of the condition of their horses, when as they said, they were well fed, say fifteen or twenty ears of corn, three times a day. As there are very many horses that cannot appreciate this amount of sound corn, the simple fact was the animals were grain poor.

3rd. I never feed grain when my horses are very warm—but of water (no matter how warm the animals) I always give a little to cool the mouth and partially quench the thirst.

4th. I give a small quantity of common salt once a week. No drugs of any kind are used—do not believe in drugs for man or beast—or curing one disease by creating a worse one. —*Prairie Farmer.*

ARMY contractors are sometimes ambushed enemies who lie in *weight.* Aye, and in measure, too.

A REMEDY FOR SNAKE-BITE.

"I have seen, says a writer in the *Rural World,* two horses, one cow and two dogs, that were bitten by rattlesnakes last season. In two instances I killed the snakes. A very large snake bit a horse while he was harnessed to a wagon—I ran to a house near by, procured a piece of indigo, the size of three or four grains of corn; I moistened and softened it with spirits of camphor, and rubbed it on the wound and drove on without any perceptible injury to the animal. Another: A valuable rat dog was bitten on the side of his nose; it made him howl and run around as if in great pain; we applied the indigo as before, and he soon recovered. I have never known this remedy to fail, and as it may not be generally known, I give it to you for the benefit of such of your readers as may be bitten next summer.

We advocate Temperance because it is a Christian virtue. We oppose intemperance because it is a sin.—We advocate total abstinence, because it is the only sure cure for drunkenness. We oppose the liquor traffic because it helps to make drunkards. We have no personal bitterness in our heart toward those engaged in the liquor traffic in all its forms. We abhor it, as we abhor all sin. We hate sin, but we do not hate the sinner.—We would gladly take all liquor manufacturers, and liquor dealers, and lead them to the Council chamber, and see them take the pledge not to make, buy, sell, or use as a beverage, any spirituous or malt liquors, wine or cider. We would not injure them, even if they refuse to give up a traffic so injurious to the souls and bodies of men. We would pray for all liquor dealers, we would love them, we would save them, if in our power. —*Christian Sun.*

THE WILL OF A DRUNKARD.—"I die a wretched sinner; and leave to the worthless reputation a wicked example, a memory that is only fit to perish in this world.

"I leave to my parents sorrow and bitterness of soul all the days of their lives.

"I leave to my brothers and sisters shame and grief, and the reproach of their acquaintances.

"I leave to my wife a widowed and broken heart, and a life of lonely struggling with want and suffering.

"I leave to my children a tainted name, a ruined position, a pitiful ignorance, and the mortifying of a father, who by his life disgraced humanity, and at his premature death joined the great company of those who are never to enter the kingdom of God."

A RUSSIAN paper says that the consumption of alcoholic drinks in the empire has increased since 1863, by 101 per cent. The number of persons who died from drunkenness in Russia, last year, was 2,748.

SUM.—Suppose a man drinks a quart of whiskey per day, how long will it be before he loses his right mind? and how long before he will have the blue devils after him? and how long will he live? Prove it by the whiskey rule of three, and you have the answer.

Which is of greater value, prythee say,
The Bride or Bridegroom?—must the truth be told?
Alas, it must! The Bride is given away—
The Bridegroom's often regularly sold.

A PERSON visiting the London Museum of Curiosities was shown the skull of Oliver Cromwell. "It is extremely small." said the visitor "Bless you, replied the cicerone, "it was his skull when he was a little boy."

"I say, Mr. Highflier, won't you let a feller go with you in that balloon?" "I can't possibly accommodate you, my dear friend." "Well then be kind enough to take my card along, for I am determined to get my name up some how or other."

In the street of Leicester one day Dean Swift was accosted by a drunken weaver, who staggering against his reverence, said:

"I've been spinning it out."

"Yes," said the Dean, "I see you have, and now you are reeling it home."

A STRANGER from the country observing an ordinary roller-rule on the table, took it up, and inquiring its use, was answered: "it was a rule for counting-houses." Too well bred, to ask unnecessary questions, he turned it over and over, and at last, in a paroxism of baffled curiosity, inquired: "How in the name of wonder do you count houses with this?"

WILLIAMSTON, MARTIN Co., February 22nd, 1869

MR. JNO. R. CONGLETON, RALEIGH, N. C.

Dear Sir:—For the last eight or ten years I have been exceedingly troubled with a painful and distressing case of the Piles Hearing "Congleton's Vegetable Salve" spoken so highly of as the great cure for Piles, I purchased in March, 1868, while in Washington N. C, one box, and was soon relieved, and by the time I had used the contents of the box I was perfectly well, and have never had any return since. I consider myself entirely and permanently cured. I give this for the benefit of those who may be troubled with the same disease, believing thereby that I will be benefiting them, and recommending to them a most valuable medicine and worthy of great praise.

I have also used the salve for Sore Throat and find it the best medicine I ever had in my family for that complaint.

Respectfully yours,

JAS H ELLISON.

TESTIMONIALS:

RALEIGH, N. C, Jan 16, 1869.

MR CONGLETON:—On the 14th inst., I came to town with considerable pain and swelling in my right knee I got a bottle of the "American Rheumatic Liniment" and applied it to my knee, which was greatly relieved and assuaged in ten hours. I then applied it again and by night was so far cured as to forget to apply the remedy; this pain had resisted the application of Liquid Opodeldoc for a week without any perceptible improvement, causing a limp in my walk at sometime and fears of inability to walk at all.

Respectfully,

THOS BAILY,

MR. CONGLETON:—Dear Sir: My little son was for four months suffering with pain in his legs and weekness in his knees so he scarcely could get about and walked with great difficulty. I was fearful that he would lose the use of his legs entirely, which gave me a great deal of trouble and anxiety, hearing of the American Rheumatic Liniment, I purchased one bottle and commenced using it, and by the time I had used half of the bottle, my son was greatly relieved and could walk very well, and after using the whole bottle, he is now perfectly well, with many thanks to you and praises for the "American Rheumatic Liniment" I am yours, &c.,

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of these from many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; find it is obstructed and sluggish in the veins; cleanse it when you find its current impeded; purify it when you find it is foul, or the health will suffer. Keep the fountain pure, and all will be well.

[redacted]

[illegible] years the people have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
